

Alpine Press Ltd. would like to introduce...

...the most advanced computer to plate technology on the planet. The Acento system by AGFA.

The chemical free process uses Azura plates, making it the most environmentally friendly system there is.

- Sublima screening produces incredibly smooth tones and blends.
- Sherpa proofing means what you see on the proof is what the final product will look like.
- The ApogeeX workflow makes it all run as smooth as silk.

- **Chemistry Free!**
- **No Film!**
- **Environmentally Friendly!**
 - **Incredibly fast!**
 - **Spectacular quality!**
- **Less cost to the consumer!**

**We are the first in Alberta
to have this superior technology!**

WE'RE FASTER THAN...

● SPECTACULAR QUALITY ● ENVIRONMENTALLY FRIENDLY ● LOWER COSTS TO YOU!

A SPEEDING BULLET! Well, maybe. We're better, faster, and stronger than before .

Alpine Press will get your print project out quickly and correctly. Our AGFA Acento System with ApogeeX workflow makes everything go as smooth as silk. Starting with your digital file, we will provide you with a Sherpa colour proof, a system that uses sublima screening to produce consistent colour and incredibly smooth tones. From there we use our chemistry free, direct-to-plate technology to get the project to the presses and... Voila! Your project is done quickly, correctly, and the results are exactly what you were expecting.

Hey, if you think that's impressive, just wait until you see us leap tall stacks of paper in a single bound!
